Church Community Update November 2023

Fall has provided some exciting steps forward as the EDGE Committee met with AUC's new Project Manager, Scott McIvor, from the Dalton Company to review the construction plan for the Aurora United Church building.

Here are some of the updates we are excited about:

- The Dalton Company provided the EDGE
- committee with a Preliminary Construction
- Schedule that maps out the timelines of the project clearly identifying the milestones with dates.
- Construction scheduled to begin mid-October 2023 with the completion of the exterior slated for September 2024 at which time the interior work will commence.
- Substantial Performance, which by definition means the building is ready for its intended use, is slated for May 2025.
- Dalton has created spacious meeting rooms and work spaces in the basement of the church for their ongoing work.
- Currently the form work is being constructed for the two stair towers.

As the Amica building has been surging ahead in the past months, soon the AUC building will take the dominant role as the building rises up to meet the sky.

EDGE and our construction teams continue to search for savings in time and cost. Through value engineering, by identifying our priorities and deferring some building features to a later date, substantial savings have already been discovered.
