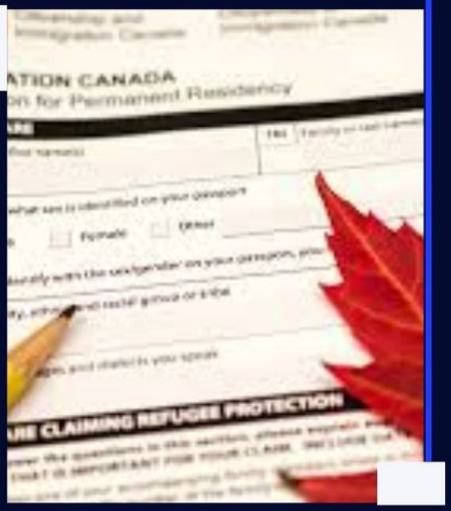
THE WORK.....

In March we joined the Central Community Action Table , a collaborative planning table, created to address unique local issues and identify solutions for targeted geographic locations. The CAT is comprised of a broad spectrum of stakeholders and partners.

At BTG we developed new resources to better serve our visitors experiencing homelessness and newcomers to Canada.



THE WINNER....

Every month we feature one of our dedicated volunteers

Linda arrives at Bridging the Gap every Tuesday morning with a smile on her face and ready to serve our visitors. Linda has been volunteering with Welcoming Arms for over six years. She is a valuable part of the team and we want to say a great big 'thank you' for all you do!
